

Donau Data Engineering GmbH – Software Engineering Internship (full-time)/ Working Student

Join Donau Data Engineering to make quality management systems more efficient and sustainable. We are looking for an engineering intern who'll join our team and grow into a full time software engineer role.

Objectives

Donau Data Engineering is accelerating Germany's transition into a more digitalized quality management. We create software that manages the administration and maintenance of hundreds of clients. If you love to contribute your ideas and engineering skills to a growing company in the heart of Oldenburg then apply now.

Your profile

- Currently pursuing a Bachelor's or Master's degree in computer science, mathematics, physics, or a related field
- Strong coding skills in JavaScript, PHP (front-end & back-end)
- Student must be proactive, capable of setting their own timelines, able to work independently, and disciplined
- Adaptable to new tasks with little lead time
- A quick learning ability, outstanding analytical skills and a structured way of thinking
- Available for at least eight weeks

What's in it for you?

- Accelerate your career growth by joining a dynamic team with great ambitions
- A high degree of collaboration and autonomy while working with a group of diverse peers
- Assume great responsibility from day one
- Competitive fixed salary
- Flexible working hours
- Steep learning curve
- Give and receive open, direct and timely feedback
- Agile work environment with flat hierarchies

Sound good? Apply now for this position.

Please send your application to info@donau-data.de. If you have any questions, call us at 0441 350 76 562.

Donau Data Engineering is an equal opportunity employer and values diversity. We do not discriminate on the basis of race, religion, color, national origin, gender, sexual orientation, age, marital status or disability status.
